In claim 18, line 1, change "wherein etching" to --wherein the etching--.

Allowable Subject Matter

3. Claims 11 and 13-21 are allowed over prior art of record.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Art Unit: 2823

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "selectively forming an epitaxial layer of a first material having the first conductivity type over the surface of the recess, and within the portion of the recess that underlies the gate electrode; and selectively forming an epitaxial layer of a second material having a second conductivity type over and within the portion that underlies the gate electrode," as recited in claim 11.

Claims 13-21 are also allowed as being dependent of the allowed independent base claim.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
